Front-End Web Developer *motivated by challenging projects with experience building responsive websites using HTML5, CSS3, and JavaScript. Detail-oriented with a strong background in teamwork and customer relations.*

PROFESSIONAL EXPERIENCE

Front-End Web Developer – Lafayette, Louisiana
VARIOUS CLIENTS, 2015 - PRESENT

Designed and developed websites using a mobile first approach, maintained active communication with clients via Skype and in-person to establish project parameters and provide updates, performed search engine optimization, monitored websites on an ongoing basis, provided social media management and email support for ecommerce store, and edited ads using Photoshop.

Recent Projects:
- **Millennium Marketing –** Designed and developed the front end of 15+ marketing websites to generate leads using HTML, CSS, Bootstrap, and jQuery.
- **Pearson Dynamics –** Responsive timeline resume for an ocean engineer built using HTML, Sass, & jQuery.

Personal Projects

- **Weather Me Up!** – A web app using HTML5 geolocation and AJAX to retrieve user's current weather based on their location.
- **Simon Says** – A web app using HTML, CSS, and jQuery to recreate the classic simon game.

Office Administrator – Lafayette, Louisiana
COASTAL CLIMATE CONTROL, 2014 - 2016

Coordinated day-to-day operations of two self-storage properties and a car wash, researched and reconciled customer concerns pertaining to billing errors and payment plans, and assisted with marketing efforts to increase sales.

Research Assistant – Boca Raton, Florida
FLORIDA ATLANTIC UNIVERSITY, 2013 - 2014

Assisted with development and implementation of an online social survey for data collection, conducted literature reviews, and presented volunteer opportunities to college classes.
